

OneLogin to Okta Migration

BeyondID

Looking to migrate from OneLogin to Okta?

BeyondID delivers secure, enterprise-grade migrations that minimize risk and downtime.

“BeyondID’s expertise gave us the confidence to move 1,284 apps in just 6 months.”

Jermaine Oldham
VP Tech Ops &
Information Security
| Echo Logistics

Why Switch?

Stronger Security & Compliance

Okta meets rigorous standards like GDPR, HIPAA, and FedRamp.

More Powerful Integrations & Features

Broader ecosystem support and advanced authentication options.

Acquisition-Driven Uncertainty

OneLogin’s direction under One Identity (Quest) raises concerns.

Scalability Without Bottlenecks

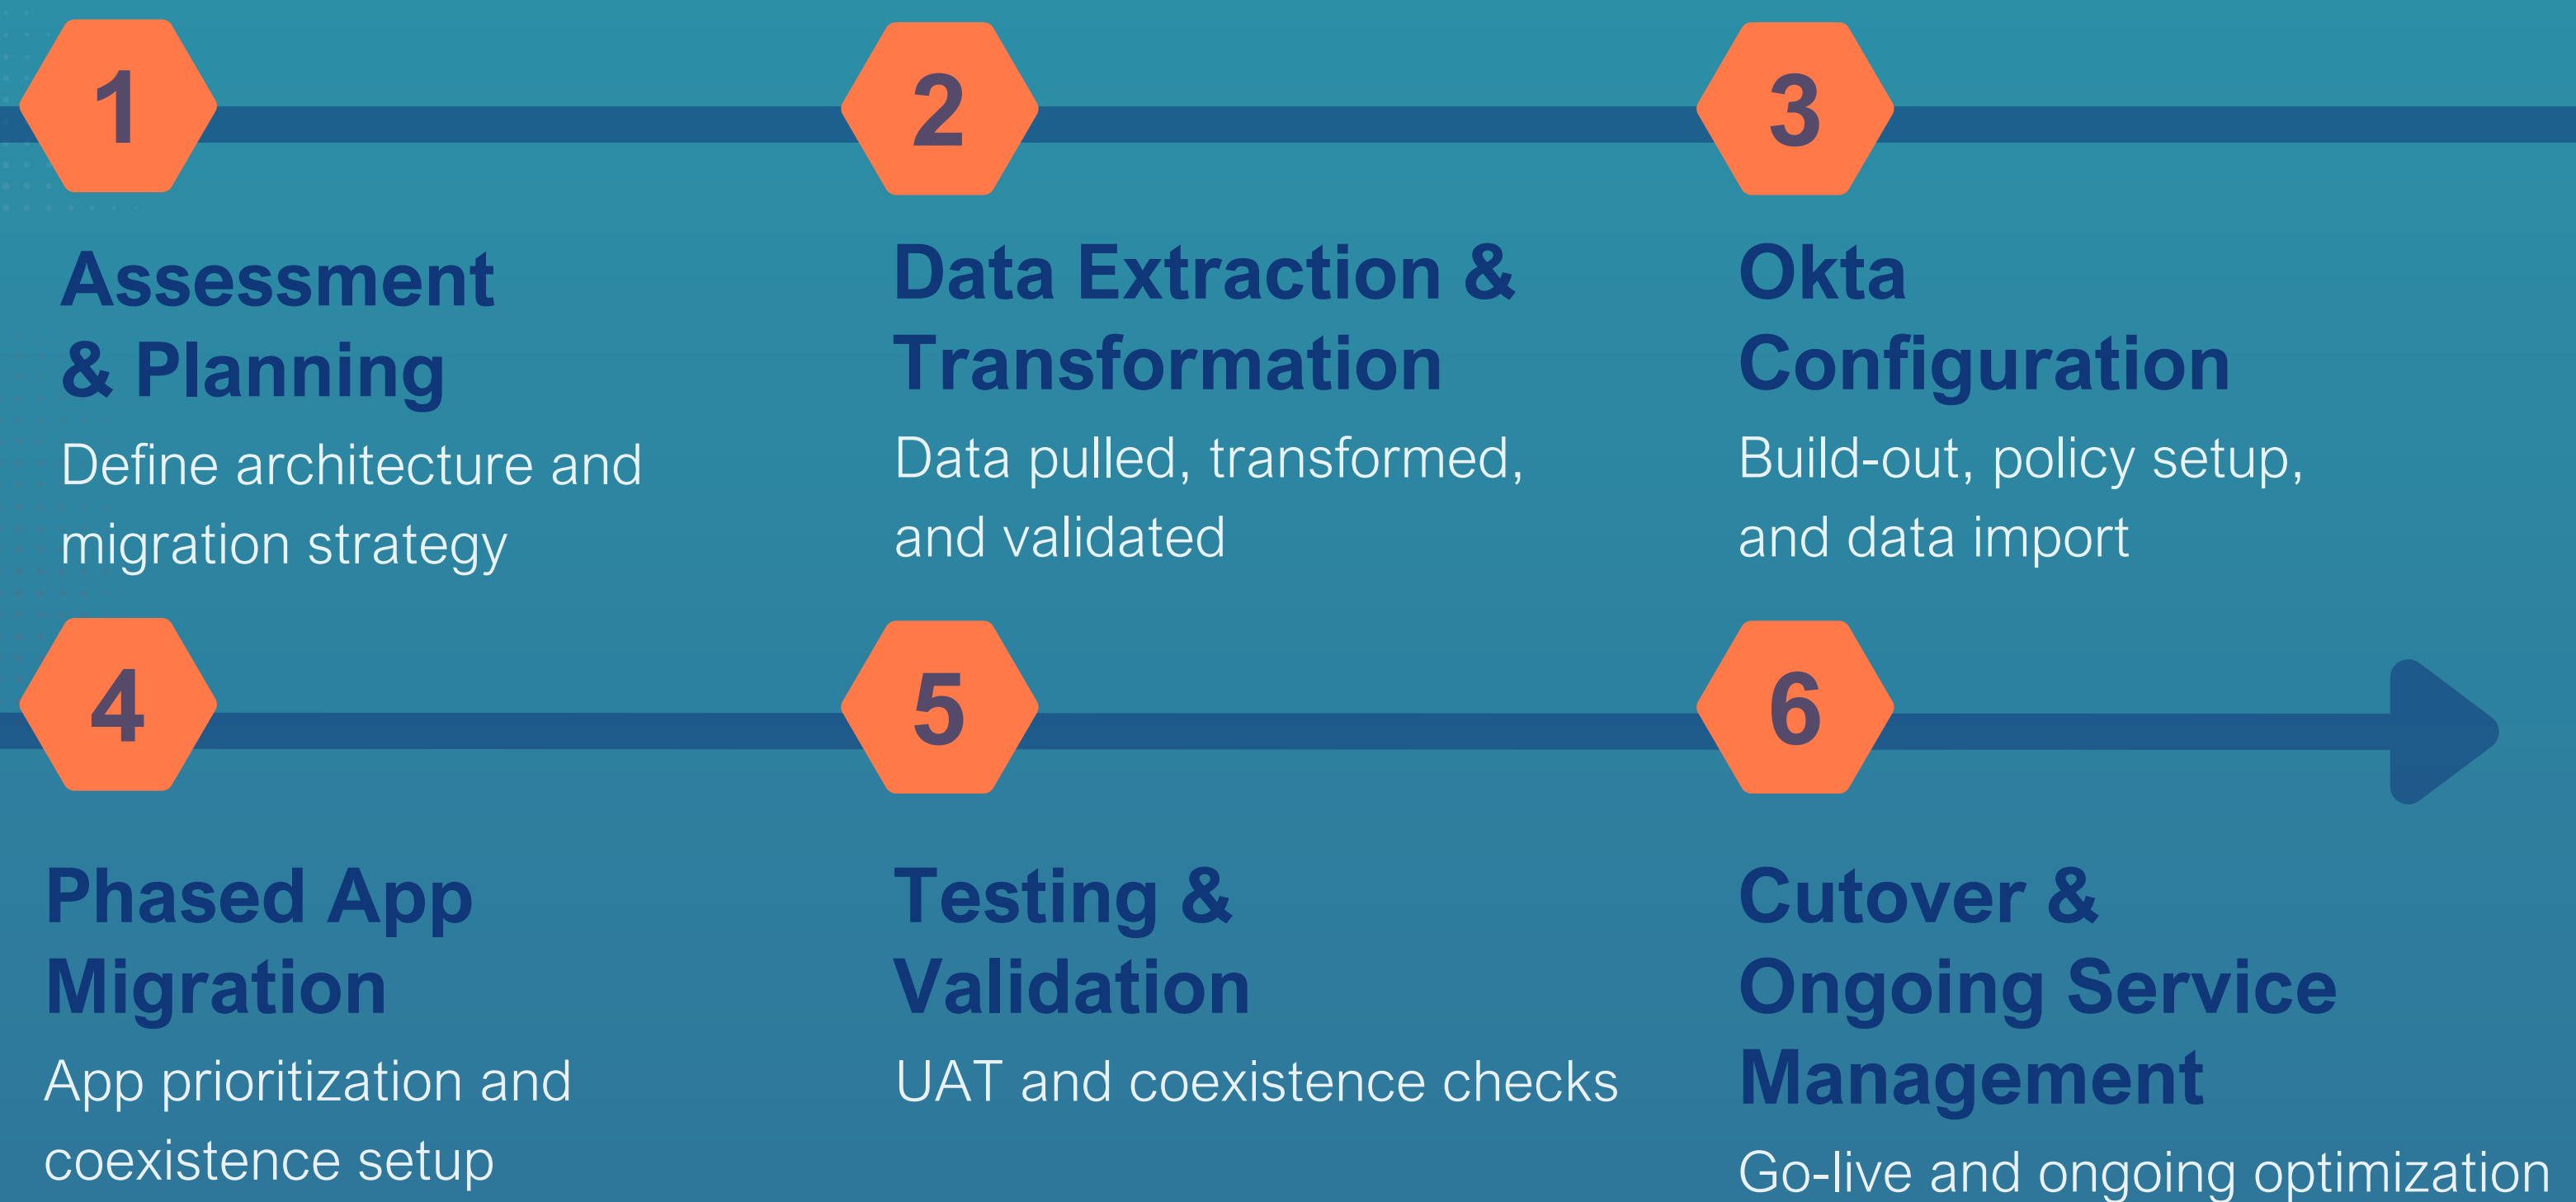

Okta offers greater uptime and performance as you grow.

More Value for Cost

Okta delivers better ROI through automation and security.

BeyondID Makes OneLogin to Okta Migration Easy

A phased, proven process that reduces risk and accelerates time to value.

Why Leading Companies Choose BeyondID

- Okta-certified experts with deep IAM experience
- Proprietary tools that accelerate migration
- Tailored process that minimizes user disruption
- Proven success with enterprise-scale environments

BeyondID has successfully completed dozens of enterprise-scale OneLogin to Okta migrations, helping IT teams modernize securely and with confidence.
