

Secure Digital Banking for Banks & Credit Unions

See Our Demos

Powered by Okta Customer Identity Cloud (Auth0) and extended by BeyondID, a KeyData Cyber family company, this solution combines secure logins, frictionless onboarding, self-service recovery, and adaptive fraud protection; all in one place.

Account Access

Passwordless, biometric, or passkey login, out-of-band MFA when risk demands it, and AI-powered “step-up” authentication for high-value actions.

Account Recovery

One-time passcodes and reset links, verified account unlock flows, and low-friction username retrieval.

Profiles & Transfers

Secure profile updates, risk-based authentication for funds movement, and secure transfers across accounts and institutions.

Smart Identity, Seamlessly Packaged.

Dynamic Login Journeys

- Tailored prompts & extra security based on context

Customizable Branding

- Seamless, on-brand login and registration

Real-Time Notifications

- Instant account activity alerts to build trust

Consent Management

- Simple tools for customer data/privacy control

Centralized Identity Management

- One source of truth across the ecosystem

Compliance-Ready Security

- Contextual MFA, anomaly detection, audit trails

Challenge

Northern Trust is a pre-eminent financial institution that provides investment and wealth management to institutions and high-net-worth individuals and families around the globe. As identity and security demands evolved, the organization faced challenges with inconsistent access, legacy applications, and the limitations of previous identity providers. To address these issues, Northern Trust turned to BeyondID to lead a full-scale migration to the Okta platform.

Solution

Unified Banking Experience

Centralized access across four passport applications, secured with Okta MFA and advanced security controls.

Seamless Migration

A smooth transition to modern architecture with Okta Access Gateway (OAG) to protect legacy systems.

Fraud Prevention

Strengthened identity security to mitigate fraud risks and protect sensitive client data.

Center of Excellence (COE)

Developing standards, best practices, and training to establish an internal COE.

Managed Services

Ongoing monitoring and optimization from certified Okta experts for enhanced security and performance.

Outcomes

Seamless Customer Experience

Secure, consistent experiences across all digital banking resources.

Improved Security Posture

Enhanced protection from modern identity threats and fraud.

Increased Customer Loyalty

Clarify your strategic goals and initiatives, align cross-functional stakeholders, and define user stories and use cases to deliver results.

Empowered Teams

Improved user experiences and trust driven by better client engagement.

Alignment

Clarify your strategic goals and initiatives, align cross-functional stakeholders, and define user stories and use cases to deliver results.
